

For our Dorint Hotels & Resorts, a leading 4 to 5 star hotel chain with 40 business hotels and resorts mainly in Germany, we awarded in 2014 to angenvoort lda. the contract to optimize the childrens' facilities in our 8 family resorts. From the analysis of the existing facilities, creating a coherent concept design and umbrella brand, area planning for the interior design of the kids club as well as other hotel areas, marketing, merchandising and gastronomic ideas, risk assessment and Project Management.

Christian Angenvoort and his team worked closely with our corporate team and Hotel Directors of various Dorint Resorts to achieve best possible results within given time and budget. We can highly recommend angenvoort Lda. as serious business partners, motivated and creative professionals for the concept design development and project management for multi-generational environments and unique kids' clubs. It has been a pleasure working with them!
